

TECHNICAL BULLETIN – JANUARY 1, 2007

JVL TOURNAMENT SYSTEM – ITOUCH9 CHANGES

Please note that several changes to the Tournament System in iTouch9 that will immediately affect all Operators in the United States. These changes have been implemented as a precaution in view of an ongoing legal dispute with Merit Industries.

The changes are as follows:

1. Only ONE tournament can be scheduled at a time. The Operator can no longer program multiple start and end dates. Only when a tournament is finished will the Operator be able to set up a new tournament. This applies to BOTH on-line (net challenges) and off-line (local / in-house challenges).
2. Multi-legged tournaments, where an Operator can create a new game by selecting a round from two or more different games, have been disabled.

We apologize for any inconveniences this may cause you. Please feel free to contact JVL Corporation with any questions and/or concerns.
