JVL NEWS

As part of our ongoing commitment to support our sales team, distribution network and operators with relevant product information, JVL is proud to introduce the first in a series of newsletters aimed at expanding your knowledge of our offerings.

Did you know that...?

...JVL's Encore is the **FIRST** and **ONLY** high-definition touchscreen entertainment system in the world?

Some other manufacturers may use widescreens in their countertop game machines, but only the Encore features a 22-inch, 16:9 high-definition LCD monitor.

The super-bright HD screen delivers unmatched depth, resolution, sharpness and contrast, all of which contribute to a richer, more immersive gaming experience.

In the fiercely competitive gaming market, every pixel counts. And sophisticated gamers, already accustomed to having HDTV in their homes, have come to expect the same picture quality from their countertop games.

One look is all it takes to see the difference: Put an Encore next to any countertop machine with a standard-definition screen, and you will immediately conclude that there is no comparison.

The Encore delivers the best visuals, hands down.

Now ask yourself, "Which system would you rather play?"

Please visit JVL at Booth 614 at the AMOA Expo between September 24-26 to experience the Encore's competitive edge, and learn how to take advantage of JVL's exclusive "do-not-pay-for-120-days" financing program, which runs until October 31, 2009.

If you can't make it to Vegas but still wish to learn more about the Encore, please visit www.jvl-ent.com or call 905.303.3360 ext. 2368.

About JVL Corporation

For more than 25 years, JVL Corporation has been manufacturing, selling, and servicing coin-operated amusement devices that have proven to be the most engaging, reliable, and profitable on the market. Through relentless research, development, and innovation, the privately-held organization has established itself as both a pioneer and market leader in touch-screen entertainment technology. Throughout the company's evolution, JVL has remained committed to serving its customers and supporting its equipment in the most timely and efficient manner possible.
